

## NORELA SALIHAIJ

Mrs. Salihaj is a dedicated member of the Greek American Institute, where she works with children ages 3–4. Working with young children is her true passion. She loves watching them grow, discover, and explore the world around them. She believes that every child learns best through play, love, and encouragement.

Before joining the school, Norela spent two years working as a babysitter, where she developed patience, care, and dedication — qualities she brings into the classroom every day.

Having her own children attend the school makes her feel even more connected to the wonderful community she serves.
