

## PANAGIOTA PLEVRITIS KATERGARIS

Mrs. Katergaris received her bachelors from the City College of New York (CCNY) in childhood education and Math. She earned her masters as an Elementary math Specialist from Hunter College. She is also certified for grades 1 - 6 in general education.

Her goal is to create a more hands-on experience with math, regardless of age. STEM education promotes integrated learning where concepts are taught throughout a wide range of topics, in a real world setting. This allows students to develop their problem solving skills using collaboration and creativity.

In her free time, Mrs. Katergaris enjoys completing the botanical lego sets and playing games with her family.
